Technical meeting

Building your partnership

Call 1

Governance Priority – Specific Objective 1

3rd March 2022 10.00-12.00

Agenda

10h00 – 10h10 Introduction

10h10 – 11h50 How to build a solid partnership for this call?

How to complete Part B of the Application Form in Jems?

Tools to submit your application

11h50 - 12h00 Conclusion and outlook on next technical meetings

Introduction - key dates

On-line **Technical meetings** to support drafting of applications

➔ **03/03:** Partnership

17/03: Intervention logic, work plan, indicators

31/03: Budget eligibility of expenditures, annexes

28/4: Ad hoc seminar carbon footprint

12/05: Q&A session

Interreg

Co-funded by
the European Union

Euro-MED

Objectives: provide technical support (JEMS) but also quality issue for drafting application

Therefore 2 parts:

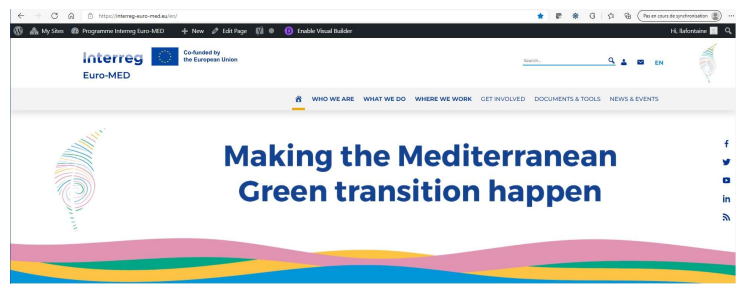

- One qualitative, on the expectations regarding each type of projects in terms of competences of the partnership
- One related to the application JEMS to guide you through the different steps.

Introduction - Link to key information

On the website of the Programme

How to build a solid partnership for this call?

THEMATIC PROJECTS

Interreg  Co-funded by
the European Union
Euro-MED

GOVERNANCE PROJECTS

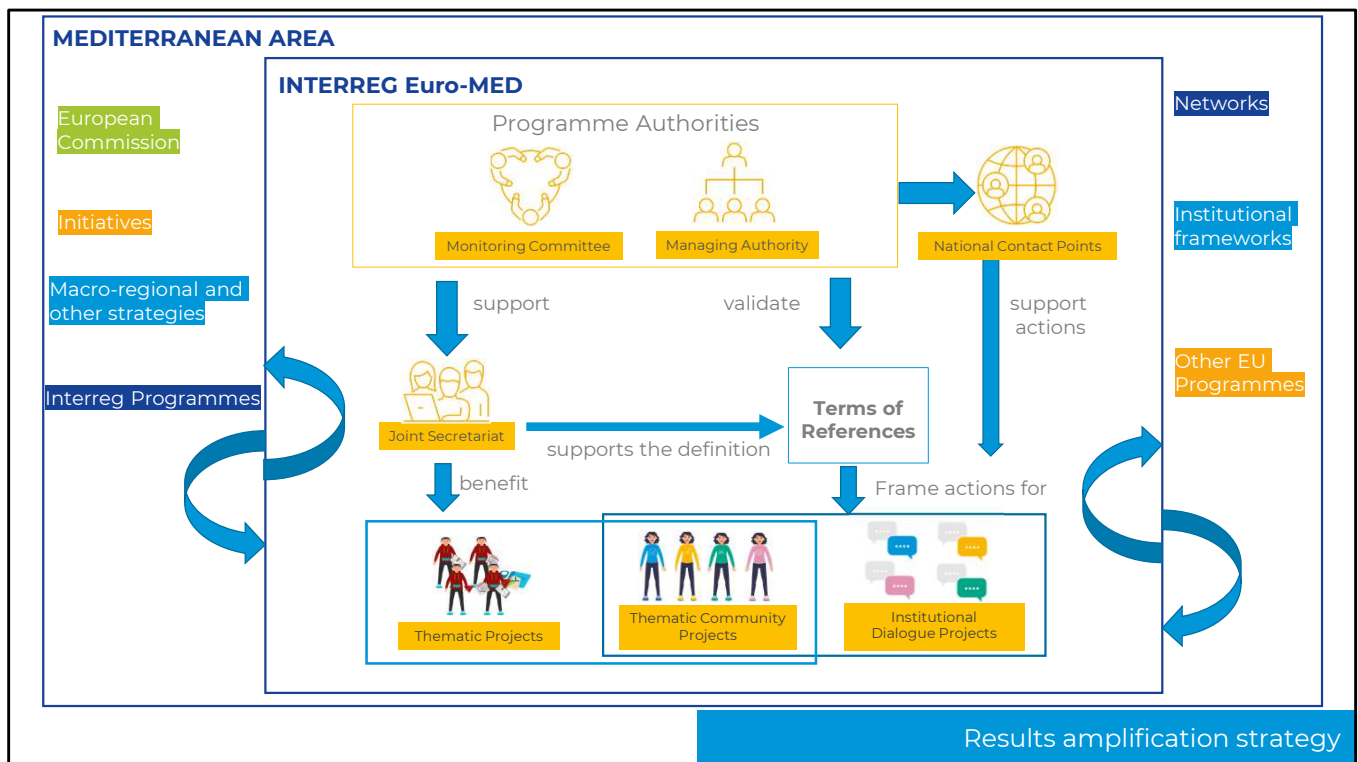

Types of Projects

A quick reminder of the 2 types of projects of the programme: thematic projects and governance projects:

The first one is mainly dedicated to the production of knowledge and outcomes while the second one is dedicated to the empowerment and the amplification of the results leading to an improved governance of the thematic issue at the different levels of governance in the Mediterranean.

The role of the governance project is directly drawn from the Result Amplification Strategy that embeds the capitalization and governance approaches of the programme.

Here is the general scheme summarizing the RAS:

In a nutshell, the RAS differs from a capitalisation strategy in the vision that underpins it and the common set of minds that it requires from all stakeholders that must be involved in the process: capitalisation contributes to improve the governance by providing insights and joint solutions based on solid evidence. The improvement of governance in turn favors a more sustainable impact of the tangible results of projects on the territories. Both are concomitant and inseparable to achieve the ambitions of the programme. They also both need the involvement of all stakeholders and a common set of minds.

In this scheme, insights and joint solutions are basically produced by thematic projects. They are enhanced by the governance projects that create and/or favor the conditions for the reuse, transfer and mainstream of the results while involving all relevant stakeholders to support a better coordination. All projects are supported in their mission by the programme authorities that play an important role to facilitate the coordination process.

Embedding capitalisation and governance: 3 objectives

CREATING THE CONDITIONS

Interreg Euro-MED has defined 3 general objectives to support the amplification of results:

SHARE

- Facilitate the **exploitation, sharing and reuse** of knowledge, experiences and project results by other Euro-MED projects or other programmes and foster the production of relevant work

GIVE IT TO OTHERS

- Encourage **the transfer** of practices and results to other actors and territories and their **integration** in the development of local, regional, national and European (mainstream) policies and strategies

INSPIRE

- Increase **coordination between actors** acting on the Mediterranean (multi-level, transnational) on the basis of this acquired knowledge, experience and results

Interreg

Co-funded by
the European Union

Euro-MED

TO MAKE A DIFFERENCE

Results amplification strategy

The 3 objectives of the RAS are based on 3 principles that we should all share and to which all shall contribute: the will to share, to give to others and to inspire.

- Facilitate the exploitation, sharing and reuse of knowledge, experiences and project results by other Euro-MED projects or other programmes and foster the production of relevant work
- Encourage the transfer of practices and results to other actors and territories and their integration in the development of local, regional, national and European (mainstream) policies and strategies
- Increase coordination between actors acting on the Mediterranean (multi-level, transnational) on the basis of this acquired knowledge, experience and results

Embedding capitalisation and governance: 3 objectives

CREATING THE CONDITIONS

Interreg Euro-MED has defined 3 general objectives to support the amplification of results:

SHARE

- Establish conditions for the reuse of results, development of synergies, and increase of coordination between **thematic projects**

GIVE IT TO OTHERS

- Encourage **the transfer** of practices and results to other actors and territories and their **integration** in the development of local, regional, national and European (mainstream) policies and strategies

INSPIRE

- Increase **coordination between actors** acting on the Mediterranean (multi-level, transnational) on the basis of this acquired knowledge, experience and results

Interreg

Co-funded by
the European Union

Euro-MED

TO MAKE A DIFFERENCE

Results amplification strategy

The governance projects are at the center of this amplification strategy and are expected to contribute to the 3 objectives in the following manner:

They are expected to contribute to establish conditions for the reuse of results, development of synergies, and increase of coordination between thematic projects.

Embedding capitalisation and governance: 3 objectives

CREATING THE CONDITIONS

Interreg Euro-MED has defined 3 general objectives to support the amplification of results:

SHARE

- Establish conditions for the reuse of results, development of synergies, and increase of coordination between **thematic projects**

GIVE IT TO OTHERS

- **Implement transfer, mainstreaming strategies** of thematic project results strategies in practices of public and private actors at local, regional and national levels providing the **technical support**
- Contribute to implementation of transfer, mainstreaming strategies **engaging** local, regional and national authorities / EU, ETC MA, initiatives, strategies

INSPIRE

- Increase **coordination between actors** acting on the Mediterranean (multi-level, transnational) on the basis of this acquired knowledge, experience and results

Interreg  Co-funded by
the European Union
Euro-MED

TO MAKE A DIFFERENCE

Results amplification strategy

They are expected as well to

- Implement transfer, mainstreaming strategies of thematic project results strategies in practices of public and private actors at local, regional and national levels providing the technical support
- Contribute to implementation of transfer, mainstreaming strategies engaging local, regional and national authorities / EU, ETC MA, initiatives, strategies

Embedding capitalisation and governance: 3 objectives

CREATING THE CONDITIONS

Interreg Euro-MED has defined 3 general objectives to support the amplification of results:

SHARE

- Establish conditions for the reuse of results, development of synergies, and increase of coordination between **thematic projects**

GIVE IT TO OTHERS

- **Implement transfer, mainstreaming strategies** of thematic project results strategies in practices of public and private actors at local, regional and national levels providing the **technical support**
- Contribute to implementation of transfer, mainstreaming strategies **engaging** local, regional and national authorities / EU, ETC MA, initiatives, strategies

INSPIRE

- Set-up **long-lasting conditions for permanent institutional and social dialogue** to bridge the transnational dimension with the local solutions, in order to contribute to territorial cohesion at the transnational Mediterranean level regarding each thematic mission

Eventually, they are expected to set-up long-lasting conditions for permanent institutional and social dialogue to bridge the transnational dimension with the local solutions, in order to contribute to territorial cohesion at the transnational Mediterranean level regarding each thematic mission.

Embedding capitalisation and governance: 3 objectives

CREATING THE CONDITIONS

Interreg Euro-MED has defined 3 general objectives to support the amplification of results:

SHARE

- > Establish conditions for the reuse of results, development of synergies, and increase of coordination between **thematic projects**

GIVE IT TO OTHERS

- > **Implement transfer, mainstreaming strategies** of thematic project results strategies in practices of public and private actors at local, regional and national levels providing the **technical support**
- > Contribute to implementation of transfer, mainstreaming strategies **engaging** local, regional and national authorities / EU, ETC MA, initiatives, strategies

INSPIRE

- > Setting up **long-lasting conditions for permanent institutional and social dialogue** to bridge the transnational dimension with the local solutions, in order to contribute to territorial cohesion at the transnational Mediterranean level regarding each thematic mission

Interreg

Co-funded by
the European Union

Euro-MED

TO MAKE A DIFFERENCE

Results amplification strategy

In terms of distribution of tasks, the TCP are more particularly in charge of the supporting the share, and implement the transfer and mainstreaming strategies of results providing technical support while the IDP are more likely expected to contribute to the implementation of the transfer and mainstreaming strategies of results by engaging stakeholders and set-up long-lasting conditions of a permanent dialogue.

Thematic Community Projects

1) Establish conditions for the reuse of results, development of synergies, and increase of coordination between **thematic projects** (Programme area / Programme partners of thematic projects)

Objective 1 RAS

2) **Implement transfer, mainstreaming strategies** of thematic project results strategies in practices of public and private actors at local, regional and national levels providing the **technical support** (Programme area / actors of local, regional and national territories).

Objective 2 RAS

Interreg

Co-funded by
the European Union

Euro-MED

Institutional Dialogue Projects

1) Contribute to implementation of transfer, mainstreaming strategies **engaging** local, regional and national authorities / EU, ETC MA, initiatives, strategies (Programme area / actors of local, regional and national authorities, Mediterranean area / TN networks and institutions),

Objective 2 RAS

2) Setting up **long-lasting conditions for permanent institutional and social dialogue** to bridge the transnational dimension with the local solutions, in order to contribute to territorial cohesion at the transnational Mediterranean level regarding each thematic mission

Objective 3 RAS

Governance projects specificities

Seen from another angle

Thematic Community Projects

1) Establish conditions for the reuse of results, development of synergies, and increase of coordination between **thematic projects** (Programme area / Programme partners of thematic projects)

2) **Implement transfer, mainstreaming strategies** of thematic project results strategies in practices of public and private actors at local, regional and national levels providing the **technical support** (Programme area / actors of local, regional and national territories).

Interreg
Euro-MED

Co-funded by
the European Union

To...	the Thematic Community Projects...
Facilitate the exploitation, sharing and reuse of knowledge, experiences and project results by Euro-MED projects or other programmes and promote the production of relevant work.	<ul style="list-style-type: none"> ✓ Organise thematic data from past, current and shared projects ✓ Establish a system of continuous and systematic peer review (sharing of results and peer review) ✓ Carry out analyses according to criteria of reusability and adaptability ✓ Organise knowledge produced by modular and strategic territorial projects ✓ Inspire linkages between thematic projects ✓ Organise exchanges between thematic projects by exploiting the administrative and technical data made available by the Programme ✓ Create and maintain partner networks in collaboration with the Institutional Dialogue Projects ✓ Organise the sharing of information on the implementation of projects ✓ Establish a system of continuous and systematic peer review ✓ Establish a mechanism for constructive exchange between project partners addressing similar and complementary issues ✓ Produce analysis matrices to identify potential synergies ✓ Integrate/aggregate results for collective dissemination to support communication and valorisation of results (collective or individual valorisation) ✓ Develop a joint map/database of targets at Programme level in collaboration with the Institutional Dialogue Projects
Encourage the transfer of practices and results to other actors and territories and their integration into local, regional, national and European policies and strategies (mainstream)	<ul style="list-style-type: none"> ✓ Carry out analyses according to criteria of replicability, adaptability, transferability and integration ✓ Set up activities to assemble, integrate and amplify the evaluated and proven results ✓ Consolidate or create networks for dissemination and participation of actors beyond the partnership in collaboration with the Institutional Dialogue Projects ✓ Disseminate aggregated or consolidated knowledge to targeted actors in collaboration with Institutional Dialogue Projects ✓ Establish national institutional networks to identify local and regional target actors to facilitate transfer and mainstreaming ✓ Develop and facilitate networks bringing together multi-level and multi-sectoral potential donors and recipients in the project in partnership with the Thematic Community Projects (local and regional) in collaboration with the Institutional Dialogue Projects (national and transnational) ✓ Establish working relationships and a roadmap with relevant decision makers with the Thematic Community Projects (local and regional) in collaboration with the Institutional Dialogue Projects (national and transnational) – Liaising strategy ✓ Organise seminars to share previous experiences and transfer and mainstream methodologies in collaboration with the Institutional Dialogue Projects ✓ Organise complementary transfer activities to reinforce the projects' approaches in collaboration with the Institutional Dialogue Projects
Increase coordination between actors acting on the Mediterranean (multi-level, transnational) based on this knowledge, experience and results	<ul style="list-style-type: none"> ✓ Implement actions to actively engage target actors in networks (created, enriched, maintained) in collaboration with Institutional Dialogue Projects (MoU, Charter, etc) ✓ Promote interfaces with other initiatives and projects of other programmes to increase the coordination of actors to address a common problem targeted on a type of geographical area through Thematic Projects or Institutional Dialogue Projects

With this contribution to the Strategy in mind, projects need to bring together partners who are able to implement the type of activities described in the strategy (read) in the 4 programme missions.

The aim here is not to review the activities listed, but if you have any questions about them, please feel free to ask. Some of these activities were illustrated in the feedback seminars we organised in January, the minutes of which are available online.

Thematic Community Projects

1) Establish conditions for the reuse of results, development of synergies, and increase of coordination between **thematic projects** (Programme area / Programme partners of thematic projects)

2) **Implement transfer, mainstreaming strategies** of thematic project results strategies in practices of public and private actors at local, regional and national levels providing the **technical support**

(Programme area / actors of local, regional and national territories).

➤ high capacity to **stimulate** communities of projects related to the missions of the Programme

➤ **analysis** skills in the selected mission and linked themes,

➤ **relate** easily with **all stakeholders** related to the selected mission

➤ high **communication and capacity building** skills to ease the reuse, merging, bridging, integration, adaptation and transfer of results.

Interreg

Co-funded by
the European Union

Euro-MED

Governance projects specificities

In general, to implement the tasks, we consider it essential that the partners of the Thematic Community projects to have the following skills.

Institutional Dialogue Projects

1) Contribute to implementation of transfer, mainstreaming strategies **engaging** local, regional and national authorities / EU, ETC MA, initiatives, strategies (Programme area / actors of local, regional and national authorities, Mediterranean area / TN networks and institutions),

2) Setting up **long-lasting conditions for permanent institutional and social dialogue** to bridge the transnational dimension with the local solutions, in order to contribute to territorial cohesion at the transnational Mediterranean level regarding each thematic mission

Interreg
Euro-MED

Co-funded by
the European Union

To...	the Institutional Dialogue Projects...
Facilitate the exploitation, sharing and reuse of knowledge, experiences and project results by Euro-MED projects or other programmes and promote the production of relevant work	<ul style="list-style-type: none"> ✓ Create and maintain partner networks in collaboration with Thematic Community Projects ✓ Develop a joint map/database of targets at Programme level in collaboration with Thematic Community Projects
Encourage the transfer of practices and results to other actors and territories and their integration into local, regional, national and European policies and strategies (mainstream)	<ul style="list-style-type: none"> ✓ Actively promote the replication of successful activities to local, regional and national authorities ✓ Consolidate or create networks for dissemination and participation of actors beyond the partnership in collaboration with Thematic Community Projects ✓ Disseminate aggregated or consolidated knowledge to targeted actors in collaboration with Thematic Community Projects ✓ Develop and facilitate networks bringing together multi-level and multi-sectoral potential donors and recipients in the project in partnership (national and transnational) in collaboration with Thematic Community Projects (local and regional) ✓ Establish working relationships and a roadmap with relevant decision makers (national and transnational) in collaboration with Thematic Community Projects (local and regional) – Liaising strategy ✓ Deploy collective advocacy activities (including networking) with decision-makers for amplification and integration of results ✓ Pre-identify tailor-made capitalisation actions for each level of governance ✓ Establishing coordinated capitalisation mechanisms/bodies at micro, meso and macro levels ✓ Identify and promote complementarity with ongoing activities in mentoring cities (donors or recipients) ✓ Favour legislative agenda that affects the thematic communities ✓ Organise seminars to share previous experiences and transfer and mainstream methodologies in collaboration with Thematic Community Projects ✓ Organise complementary transfer activities to reinforce the projects' approaches in collaboration with Thematic Community Projects ✓ Support capacity building of public institutions in the regions to design, implement and evaluate transformative policies necessary to achieve the objectives of the thematic missions
Increase coordination between actors acting on the Mediterranean (multi-level, transnational) based on this knowledge, experience and results	<ul style="list-style-type: none"> ✓ Implement actions to actively engage target actors in networks (created, enriched, maintained) - MoU, Charter, etc - in collaboration with Thematic Community Projects ✓ Identify links between legislative processes at regional and local/ and regional and national levels ✓ Facilitate cooperation and complementarity between regions and local authorities ✓ Analyse and draw up the state of the art of cooperation and capitalisation

Similarly, the institutional dialogue projects.

Again, this is not a review of all the activities, but if you have any questions, please do not hesitate to ask. Some of them have been discussed in the feedback seminars, but some activities are new and may need further clarification. IDP projects contribute to the objectives of the strategy with specific objectives detailed in the strategy and corresponding types of activities.

Institutional Dialogue Projects

1) Contribute to implementation of transfer, mainstreaming strategies **engaging** local, regional and national authorities / EU, ETC MA, initiatives, strategies (Programme area / actors of local, regional and national authorities, Mediterranean area / TN networks and institutions)

2) Setting up **long-lasting conditions for permanent institutional and social dialogue** to bridge the transnational dimension with the local solutions, in order to contribute to territorial cohesion at the transnational Mediterranean level regarding each thematic mission

- > solid **institutional experience** linked to the selected mission
- > capacity to **identify and mobilise** key external players to support uptake and setting-up of transformative policies to amplify the outreach of the results
- > relate easily to **academia and civil society** organisations.

Interreg

Co-funded by
the European Union

Euro-MED

Governance projects specificities

As with the thematic community projects, we believe that the qualities required for partnership are the following ones.

Thematic Community Projects

- > high capacity to **stimulate** communities of projects related to the missions of the Programme
- > **analysis** skills in the selected mission and linked themes,
- > **relate** easily with **all stakeholders** related to the selected mission
- > high **communication and capacity building** skills to ease the reuse, merging, bridging, integration, adaptation and transfer of results.

Interreg

Co-funded by
the European Union

Euro-MED

Institutional Dialogue Projects

- > solid **institutional experience** linked to the selected mission
- > capacity to **identify and mobilise** key external players to support uptake and setting-up of transformative policies to amplify the outreach of the results
- > relate easily to **academia and civil society** organisations.

Governance projects specificities

This is a recap with the keywords.

Governance projects: partners bodies

Thematic Community Projects

Institutional Dialogue Projects

Public authorities (thematic departments linked to the targeted Mission)

Specialised agencies: e.g. environmental agencies, structures in charge of protected areas, energy agencies, business support organisations and their networks

Universities, higher education institutions and research centres

NGOs, local communities and associations

Thematic Transnational Networks

Mediterranean Thematic Networks

Networks of decision makers

Institutional networks

Advocacy networks

International bodies

Interreg

Co-funded by
the European Union

Euro-MED

Governance projects specificities

This is a list of possible institutions, but as you have understood, what matters is the capacity of the partners and the demonstration of these skills, not its nature. There will be no exclusion. However, it is important to keep in mind all the characteristics of the call for projects and of an Interreg call to ensure that the partners have the necessary resources to participate (budget advance, HR, etc.)

Governance projects: indicative distribution

Thematic Community Projects

- > Specialised agencies: eg environmental agencies, structures in charge of protected areas, energy agencies, business support organisations and their networks
- > Universities, higher education institutions and research centres
- > NGOs/ local communities and associations, foundations
- > Thematic Transnational Networks
- > Mediterranean Thematic Networks
- > Public authorities (thematic departments linked to the targeted Mission)

Institutional Dialogue Projects

- > Public authorities (thematic departments linked to the targeted mission)
- > Networks of decision makers
- > Institutional networks
- > International bodies
- > Advocacy networks

Interreg

Co-funded by
the European Union

Euro-MED

Governance projects specificities

We suggest an indicative distribution according to general profile and acknowledged competences, but this is not exclusive. Once again, the demonstration of the relevant skills will prevail.

Partners status: co-funded or associated partners

Co-funded partners

- > Any of the listed partners
- > Receive funds
- > Limited number
- > Implement activities and report

Associated partners

- > Any of the listed partners
- > Don't receive funds but paired active partner can cover travel and accommodation costs
- > Potentially unlimited numbers
- > Take part in activities according to added-value (both ways):
 - Advisory (provide expertise in the theme tackled),
 - End-users/takers/final beneficiaries (use the outputs delivered)
 - Observer/supporter (for endorsement)

Given the ambition of the Programme to extend its impact beyond its geographical area, in addition to associated partners from the Programme area, associated partners from outside the Programme area (Southern and eastern Mediterranean shores notably as well as other Balkan countries) that have a particular interest in the Mediterranean territories linked to the 4 missions of the Programme are of great value and their participation in the current call is highly recommended. Associated partners could represent a bridge between the Euro-MED Programme and others and in that way to facilitate inter-Programme exchanges and result amplification shared actions across the whole Mediterranean area (North to South, East to West).

Projects shall develop a strategy for the selection and involvement of associated partners, including a) purpose / typology and b) roles and expectations. 3 main roles for associated partners are identified:

- ✓ Advisory (provide expertise in the theme tackled),
- ✓ End-users/takers/final beneficiaries (use the outputs delivered)
- ✓ Observer/supporter (for endorsement)

This will lead us to talk about the implementation time, budget and other features of the call.

Expected partnership 1/2

- > As a **minimum, the project partnership must be composed of partners based in six (6) different countries of the Interreg Euro-MED eligible area** (eligibility criteria B.1).
- > Among these **6 partners, at least 1 must be based in the EU area of the Interreg Euro-MED Programme** and 1 in the IPA area. (eligibility criteria B.2)
- > The LP is a **public body, or a body governed by public law** (as defined in Directive 2014/24/EU) (eligibility criteria B.3).

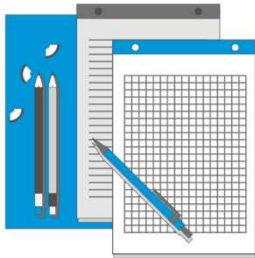

Regarding the specificities of the call;

A minimum of 6 countries from the Interreg Euro-MED eligible area (eligibility criteria B.1) This means IPA or ERDF partners located in regions among the 69 composing the Programme eligible area.

The LP is a public body, or a body governed by public law (as defined in Directive 2014/24/EU) (eligibility criteria B.3) located in the eligible area

No limit for participation per country for this call but transnationality will be assessed.

Expected partnership – Points of attention

For lead partners applicants (LP): may **only** be lead partners or partners **in one (1) selected project**.

For partner applicants: may only participate in **one (1) selected project of the same type (TCP or IDP)**

NB: Participation in this call does not imply any restriction on possible participation in future thematic calls/projects.

Reference documents:
Terms of Reference (Annex I)

Interreg
Euro-MED

Co-funded by
the European Union

Governance projects specificities

The list of eligible partners to the Programme are included in the Manual. The list of Suitable partners for the Call are included in the Tors and already evoked by my colleague Lydwine. Some restrictions are also mentioned in the document.

For lead partners applicants (LP): the lead partners of selected projects may only be lead partners or partners in one (1) project. After selection, any LP present as a partner or lead partner in more than one selected proposal will have to choose to position itself in only one project,

For partner applicants: partners in selected projects may only participate in one (1) project of the same type (TCP or IDP) and must choose to position themselves in only one selected project of the same type (TCP or IDP)

NB: Participation in this call does not imply any restriction on possible participation in future thematic calls/projects.

Please avoid multi candidacy in order to speed up pre-contracting phases and to ease as much as possible project's starting,

Get a feedback on your project idea

Questionnaire on the Programme website

Provide an outline of your proposal

- Context and objectives of your project
- Partnership

30-min video call with the JS
to discuss your idea and answer questions

Idea submission: 7 – 11 March

Interviews: 21 – 31 March

Minimum 2 partners, registered on Jems

Interreg

Co-funded by
the European Union

Euro-MED

Tools

We will offer an additional opportunity, for you to get direct feedback from us during the preparation of your proposal, in the form of a conversation with the JS team on your project idea:

You will first provide initial elements of your project concept, through an online questionnaire that you will find on the programme website, where you will answer questions such as What needs does your project respond to? How does it fit within this mission? how do you intend to improve the governance processes in the Mediterranean? What is the idea based on? Who are your partners (or what type do you need) and how are they relevant?

The JS will collect and review ideas, and you will then be invited to join the JS in a 30-min call to exchange on your idea, provide feedback and answer questions – making sure that your idea is in line with the call expectations.

Be aware that there will only be 30 slots for these sessions, so make sure to submit your idea in time – we will only open the questionnaire for one week, from 7th March so that you have enough time to conceptualise/mature your idea. We will ask that representatives from at least 2 partners are present in the call (including the LP) and that they are registered on Jems.
