

MED TALKS

fostering dialogue between
Northern and Southern shores

How can we improve a green and blue innovative economy, protect natural resources, develop sustainable living areas and a low-impact tourism in the Mediterranean?

The MED Talks webinar will be a unique opportunity to discuss with Interreg Euro-MED on the mentioned challenges and to exchange with the projects to participate in thematic working groups, capacity building, networks, campaigns, and other activities that are being organized. Your knowledge, your experience and your work could contribute to improve the Mediterranean.

AGENDA

Moderation by Amparo Montán Montesinos
