

Knowledge is one of the most valuable outcomes of cooperation. Every day, Interreg projects bring together **people, institutions and territories** to exchange experiences, test solutions and learn from one another. But **how can this knowledge be shared** beyond project partnerships and made accessible to a wider audience?

As part of Interreg Cooperation Day 2026 and its theme *Stronger Together*, this online event will introduce the **Interreg Euro-MED Academy** as a space where cooperation becomes shared learning. Through interactive discussions, audience engagement and a live exploration of the Academy, participants will discover how **knowledge generated through territorial cooperation** can inspire, inform and benefit everyone.

Draft agenda

12:00 – 12:10 | Do EU know?

Welcome

How much do you know about European cooperation?

- *Interreg Euro-MED Joint Secretariat*
