## Conclusions:

The Monitoring Committee has approved the 2026 work plan of the Joint Secretariat, which includes the launch of Call 6 and the Fast Lane process, providing support for ongoing projects, preparing for the Mid-Term Event and starting work on the post-2027 perspective, based on the Commission's draft regulations and the ongoing negotiations.

The Monitoring Committee also approved the Fast Lane procedure, confirming its key principles and calendar. A written procedure will follow in December to approve the 3 documents linked to the Fastlane process:

- The Terms of Reference for Call 06, and its launch on 8 January 2026,
- The specific framework document allowing the addition of a transfer phase to the test projects, including the specificities for Call 2,
- The modifications of the Programme Manual.
