# Poster guidelines

---

for the Interreg Euro-MED missions and projects

Each partner must place a poster (minimum size A3) or equivalent electronic display at a location clearly visible to the public.

A photographic evidence of the poster display will have to be sent together with the first progress report.

A poster is available for each mission.

This template is editable and you are free to change it or, if you wish, design your own poster. However, please bear in mind that:

- The minimum size A3 must be respected;
- The Monserrat font must be used ([download it here](#));
- The mission logos, pictograms and colors must be used.

*It is strongly recommended to use professional printing for better quality posters.*
